AUDITOR'S REVIEW REPORT

TO : MINISTER OF FINANCE

The Office of the Auditor General has reviewed the statements of financial position, in which the equity method is applied to investment and the Bank's statements of financial position of the Export-Import Bank of Thailand as at June 30, 2011, and the statements of comprehensive income, in which the equity method is applied to investment and the Bank's statements of comprehensive income for the three-month periods and six-month periods ended June 30, 2011 and 2010, and the related statements of changes in shareholders' equity and cash flows, in which the equity method is applied to investment and the Bank's statements of changes in shareholders' equity and cash flows for the six-month periods ended June 30, 2011 and 2010. These financial statements are the responsibility of the Bank's management as to their correctness and completeness of the presentation. The responsibility of the Office of the Auditor General is to issue a report on these financial statements based on the reviews.

The Office of the Auditor General conducted the reviews in accordance with the auditing standard applicable to review engagements. This standard requires that the Office of the Auditor General plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of the Bank's personnel and analytical procedures applied to financial data thus provides less assurance than an audit in accordance with generally accepted auditing standards. The Office of the Auditor General, therefore, does not express an audit opinion, accordingly.

Based on these reviews, nothing has come to the attention that causes the Office of the Auditor General to believe that the financial statements, in which the equity method is applied to investment and the Bank's financial statements are not presented fairly, in all material respects, in accordance with generally accepted accounting principles.

The Office of the Auditor General has previously audited the financial statements, in which the equity method is applied to investment and the Bank's financial statements for the year ended December 31, 2010 of the Export-Import Bank of Thailand in accordance with generally accepted auditing standards and expressed an unqualified opinion in the audit report dated February 21, 2011. The statements of financial position, in which the equity method is applied to investment and the Bank's statements of financial position as at December 31, 2010, as presented herein for comparative purposes, are part of the financial statements in which the equity method is applied to investment and the Bank's financial statements which the Office of the Auditor General has audited and issued a report thereon as stated above. The Office of the Auditor General has not performed any other audit procedures after the date of that report.

As described in Notes to the financial statements No.2.2 and No.5.21 for the three-month period and six-month period ended June 30, 2011, the Bank adopted the new and revised accounting standards and financial reporting standards issued by the Federation of Accounting Professions as well as the Bank of Thailand's notification regarding "Preparation and Announcement of the Financial Statements of Commercial Banks and Holding Company as the Parent Company of the Business in the Financial Group" which are effective for the financial statements for the accounting period since January 1, 2011 onwards, and applied them in the preparation and presentation of the interim financial statements. The financial statements for the three-month period and six-month period ended June 30, 2010 and the statement of financial position as at December 31, 2010 which are included herein for comparative purposes are presented in the new format to be consistent with the financial statements for the three-month period and six-month period ended June 30, 2011.

EXPORT-IMPORT BANK OF THAILAND
NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE THREE-MONTH AND SIX-MONTH PERIODS ENDED JUNE 30, 2011 AND 2010
(UNAUDITED/REVIEWED)

1. GENERAL INFORMATION

Export-Import Bank of Thailand (or "the Bank") was established by the Export-Import Bank of Thailand Act, 1993 (B.E. 2536), which was amended by the Export-Import Bank of Thailand Act (No.2), 1999 (B.E. 2542), with the objective to provide financial supports for exports, imports and investments related to the development of the Thai economy. Its services include:

- export financing services provided through commercial banks;
- short-term and long-term credits provided directly to exporters;
- medium-term credits for export business expansion;
- short-term and medium-term credits to foreign banks to finance goods imported from Thailand;
- credit and equity financing to support Thai investments overseas that are beneficial to the country;
- export credit insurance services to Thai exporters;
- credits for overseas projects yielding economic returns to Thailand;
- investment insurance services for overseas investments of Thai investors who have been granted credit lines from the Bank; and
- stand-by claims purchase agreement services.

The Bank's Head Office is located at 1193 Phaholyothin Road, Samsen Nai, Phayathai, Bangkok 10400.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation of the Financial Statements

The interim financial statements are prepared in accordance with the requirements of Accounting Standard No. 34 (Revised 2009): Interim Financial Reporting, covering the statements of financial position, statements of comprehensive income, changes in capital and cash flows as those of annual financial statements and notes on only material item.

An interim financial report provides details of recent events and changes to the annual financial statements on a year-to-date basis. As a result, a reader would need to access the Bank's most recent annual report ended December 31, 2010 to gain a full understanding of the Bank's financial position.

The financial statements are prepared in conformity with Generally Accepted Accounting Principles as prescribed in the Accounting Act, 2000 (B.E. 2543) and presented in accordance with the Notification, issued by the Bank of Thailand, No. SOR NOR SOR 11/2553 dated December 3, 2010 regarding the Preparation and Announcement of the Financial Statements of Commercial Banks and Holding Company as the Parent Company of the Business in the Financial Group.

2.2 Adoption of New and Revised Thai Accounting Standards

The Bank has adopted the new and revised Accounting Standards and Financial Reporting Standards which will affect its financial statements for fiscal periods beginning January 1, 2011 and thereafter. The details of Standards are as follows;

Accounting Standards

- TAS 1 Presentation of Financial Statements (Revised 2009)
- TAS 7 Statement of Cash Flows (Revised 2009)
- TAS 8 Accounting Policies, Changes in Accounting, Estimates and Errors (Revised 2009)
- TAS 10 Events after the Reporting Period (Revised 2009)
- TAS 16 Property, Plant and Equipment (Revised 2009)
- TAS 17 Leases (Revised 2009)
- TAS 18 Revenue (Revised 2009)
- TAS 19 Employee Benefits
- TAS 23 Borrowing Costs (Revised 2009)
- TAS 24 Related Party Disclosures (Revised 2009)
- TAS 26 Accounting and Reporting by Retirement Benefit Plans
- TAS 27 Consolidated and Separate Financial Statements (Revised 2009)
- TAS 28 Investments in Associates (Revised 2009)
- TAS 29 Financial Reporting in Hyperinflationary Economics
- TAS 34 Interim Financial Reporting (Revised 2009)
- TAS 36 Impairment of Assets (Revised 2009)
- TAS 37 Provisions, Contingent Liabilities and Contingent Assets (Revised 2009)
- TAS 38 Intangible Assets (Revised 2009)

Financial Reporting Standard

- TFRS 5 Non-current Assets Held for Sale and Discontinued Operations (Revised 2009)

In applying the abovementioned Standards, the subsequent effects are as follows;

1. TAS 1 Presentation of Financial Statements (Revised 2009), the requirements regarding the presentation in the financial statements have changed. In order to conform to the requirements, the Bank has reclassified its financial statements for the three-month period and six-month period ended June 30, 2010 and for the year ended December 31, 2010. However, such reclassification has no material impact on the Bank's net income.

2. TAS 19 Employee Benefits, the estimated past service cost as at December 31, 2010 was Baht 95.80 million which the Bank records as expense spanning 5 years starting 2011. For the six-month period ended June 30, 2011, the Bank has recognized service cost as personnel expense in the statement of comprehensive income of amount Baht 16.27 million which consisted of the past service cost of amount Baht 9.58 million and current service cost of amount Baht 6.69 million. The service cost also presented under provisions in the statement of financial position with the same amount (Note 5.7).

TAS 20 Accounting for Government Grants and Disclosure of Government Assistance (Revised 2009) and TAS 21 The Effects of Changes in Foreign Exchange Rate (Revised 2009), the Bank has assessed the impact of such accounting standards that will be effective on January 1, 2013 and determined that they will have no material impact on the Bank's financial statements in the period of initial adoption.

2.3 Changes in Accounting Policies and Accounting Estimates

2.3.1 Changes in Accounting Policies

The Bank changes accounting policy for derivatives from Hedge Accounting by recording fair value changes in hedging reserve caption under capital in statement of financial position to Derivatives Accounting which records the fair value changes on derivatives in statement of comprehensive income effective on January 1, 2011. Under such change, the Bank had reversed hedging reserve as at December 31, 2010 of amount Baht 40.64 million and recognized as gains (losses) on revaluation of derivatives.

2.3.2 Changes in Accounting Estimates

The Bank had reappraised the useful life and reviewed the carrying amount of assets according to TAS 16 Property, Plant and Equipment as follows;

- The Bank had reappraised the useful life of building at head office. After reappraisal, the new useful life is now 50 years increasing from 30 years which affects the accumulated depreciation to decrease by the amount of Baht 12.29 million per year.

- The Bank had reviewed the carrying amount of vehicles with the expected proceed on disposal of vehicles and adjusted amount of salvage value to those related vehicles. Such revision will decrease the depreciation expense in 2011 by Baht 8.97 million.

2.4 Summary of Significant Accounting Policies

Employee Benefits

The Bank has adopted TAS 19 Employee Benefit. In estimating the provision of employee benefits, the Bank uses actuarial technique to determine cash flows of employee benefits to be paid in the future. Under this technique, statistical data is based on employee's salary, employee turnover, mortality turnover, years of experience, and etc. Then, such cash flows are discounted by using the yield at the reporting date on government bonds that published by ThaiBMA.

3. Capital Adequacy

The detail of Bank's capital are as follows;

- **Capital under the Ministerial Regulation.** At the end of June 2011, the Bank's capital adequacy ratio (CAR) stood at 21.32%, exceeding the minimum capital adequacy ratio stipulated in the Ministerial Regulation (not less than 8%) and the Bank's capital to insurance service contingent liabilities ratio stood at 39.37%, exceeding the minimum capital to insurance service contingent liabilities ratio stipulated in the Ministerial Regulation (not less than 20%).

4. ESTIMATES AND ASSUMPTIONS

In preparation of the financial statements in conformity to Generally Accepted Accounting Principles (GAAP), the Bank has to set up estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities. The consideration for such estimates and assumptions is based on the experience and reliable information that is available at the time that the financial statements are being prepared. However, the actual results may differ from the estimates.

The Bank reviews the estimates and assumptions on a regular basis and recognizes the effects of those changes in the same period and the following periods if the effects are longer than one period.
